Accessing RFI Web tool from silabs.com
What information can be obtained from the tool?

- General Information
  - Quality System Certifications
  - Financial information
  - Conflict Minerals (CMRT)

- Product Information
  - Environmental Information (ROHS/REACH CoC, MCD/FMD/MDDS)
  - Packing information
  - Qualification Data
  - Trade Compliance: ECC/HTS Codes
  - Supply Chain Information

- Other uncategorized information
How do I access this tool?

1. Enter [www.silabs.com](http://www.silabs.com) in your browser
2. Navigate to “Community & Support”
3. Under “Resources” click “Quality & Environmental Information”
Logging in

- Click the “Search” button and you will be redirected to a sign in page
- If you already have an account on silabs.com, please sign in
- If you do not, sign up by clicking “Create an Account”
Searching Data

Enter Part number and click red arrow

Select Part Number and click “Show All Data”

Access Data

HINT: Use browser search feature i.e. “Ctrl+F” (command+F, if you are using a Mac device) to search for a keyword for quick access. Example: ‘ROHS’ yields the certificate of conformance.
Useful Tips

- Results are classified into 2 sections i.e. General (Non-Part Specific) and Primary/Secondary Results (Part-Specific)
- EU RoHS, RoHS3 and China RoHS are covered under a single declaration
- MCD/FMD are captured as Detailed Device Composition (MDDS) on the tool
- Some of our legacy products may have missing information, please contact sales for more information
- Use browser search function and enter keywords to locate data. As an example, doing a “CTRL + F” on a windows machine for “CMRT” yields the location of the CMRT statement
Thank You!
