

# Statement on Use of Cobalt

---

Dear Valued Silicon Labs Customer,

In an effort to eliminate the impact of our supply chain on conflict minerals, Silicon Labs has begun collecting smelter information on Cobalt in addition to the conflict minerals under Section 1502 of HR 4173. We are actively working with our suppliers to understand or establish their systems for sourcing of raw materials, including any cobalt related minerals which may be used in Silicon Labs' products.

An RMI (Responsible Minerals Initiative) CRT (Cobalt Reporting Template) form will be available upon request for customers. Silicon Labs requires all suppliers to source from Conflict-Free Cobalt smelters, maintain a Conflict-Free sourcing policy, and comply with our internal policy based on the OECD due diligence guidelines.

Silicon Labs is committed to a conflict-free supply chain. There are no known Conflict Minerals including Cobalt in Silicon Labs' products that directly or indirectly finance or benefit armed groups in the Democratic Republic of the Congo or adjoining countries. Should you have additional questions, please contact your Silicon Labs Sales team.

A handwritten signature in black ink that reads 'Sandeep P. Kumar'. The signature is written in a cursive style and is positioned above a horizontal line.
